

AUDITION TECHNIQUES FOR STAGE (FOR ALL LEVELS)

Instructed by **Steph Davis**

Use the month of August to get ready for the upcoming theater season! Whether you're a beginner with no audition experience, or an experienced actor that needs to refine your technique, this class is for you! This audition workshop (for the stage) will give you the tools and the confidence to walk into any theater and give a memorable audition. I will cover:

- Cold and warm reading techniques
- Cattle calls and waiting room conduct
- Audition room do's and don'ts
- How to focus and pinpoint objectives
- Monologues and much more!!!

Your goal is to get cast. My goal is to give you an edge over the others. It's not just your "talent" but your professionalism and confidence that shines through in an audition. Giving a memorable audition is your best insurance for being offered, if not the role you want, a different role in the same play or an invitation to audition for another project. Become a "must have" asset to any cast!
